DeluxePaint® II

by Dan Silva

Best Graphics Product, 1986:
Software Publishers Association
Best Creativity Product, 1986:
Software Publishers Association

The only paint program that takes full advantage of the graphic power of your Apple IIGS. Over 90 features — many of which you can't find in any other paint program — allow you to create professional-quality computer graphics as fast as you can imagine them. Make stencils to cover existing art elements, then paint over and under them. Fill any space with patterns, solid color, or a gradient blend of colors. Use the perspective feature to turn 2-D into 3-D with one click. Generate logos, storyboards, comps, and presentation graphics. The possibilities are endless! Includes free bonus art disk — a $30 value! **$99.95**

Features:

- Pick up any piece of art and use it as a "brush".
- Rotate, flip, shear, bend, stretch, and add drop shadows to any brush.
- Draw broken lines, perfect curves, plus filled and unfilled circles, squares, polygons, and ellipses.
- Select from over 65 included fill patterns, or easily create your own.
- Make any brush or fill pattern into 3-D with the Perspective feature.
- Choose a palette of up to 16 colors from 4,096 available shades.
- Create animated effects with Color Cycling.
- Smooth edges and color transitions with anti-aliasing: no jagged edges!
- Work on two canvases (screens) at the same time — and switch back and forth between them with just a click.
- Choose screen resolutions of 320x200 or 640x200 .
- Add text to your paintings using Apple IIGS fonts.
- Full cut-and-paste editing, using Apple IIGS clipboard. Use the Undo command to reverse your last action.
- Other features: magnify, zoom, mirror and cyclic symmetry, and gridding for precise spacing.
- 146-page manual covers every feature. Complete tutorials make you an expert in just hours.
- Use images from the Deluxe Library™ of color clip-art disks!
- So powerful, it requires 768K of RAM .

Music Construction Set®

by Will Harvey

Readers' Choice Award:
Best Music Software,
1986 A+ Magazine
SPA Platinum Disk (over 250,000 sold):
Software Publishers Association

The all-time best-selling music program is new and enhanced just for the Apple IIGS! Compose, edit, save, and print — and play it with any of the 16 digitized instruments. Clear, colorful graphics and user-friendly interface make this the intuitive choice for musicians at all levels.**$49.95**

- A complete selection of multi-colored graphic images and borders included, or create your own!
- Use graphic images and borders with up to 16 colors from a palette of 4,096
- Multi-color graphics and border editor with DeluxePaint II type tools, shapes, fills
- "WYSIWYG:" What you see onscreen is what gets printed
- Mix fonts, type sizes, styles and graphics on one printout
- Thirteen powerful text tools let you pick fonts, move, center, flip, size, and edit text
- Seven ready-made page formats
- Use images from DeluxePaint II and the Deluxe Library art disk collection

Coming In 1988!

DeluxeMusic Construction Set® by Geoff Brown

Best Sound & Music Effects, 1986:
Software Publishers Association

The ultimate music software for your Apple IIGS. From composition to transposition, from MIDI input to printed sheet music, DeluxeMusic Construction Set does all the work, and gives you all the fun. The first complete music composition tool that's simple enough for a beginner — and powerful enough for a professional musician. Compatible with Instant Music, Deluxe Library music data disks, and other programs supporting Apple's "preferred" music and instrument file format.

Features:

- Complete MIDI compatibility: produce MIDI output on 16 channels; input music from MIDI keyboards or other instruments.
- Complete musical notation: triplets, slurs, beams, up to eight staffs with two tracks per staff.
- Multiple time and key signatures within one song.
- Repeats, first and second endings, and double bar.
- Easy, automatic transposition.
- Onscreen keyboard helps you input notes, and works like a player piano during playback.
- Complete playback tools: see and hear notes before you write them. Select from a variety of digitized instruments and an assortment of play styles: staccato to vibrato!
- Dynamic range from *ppp* to *fff*, at a playback speed between 1 and 240 beats/minute.
- Full cut-and-paste editing.
- Complete printing capabilities: prints sheet music with lyrics, and special symbols like trills and codas.
- Supports Adobe's Sonata font for near-typeset quality from Apple's LaserWriter printers.

Available Now!

Instant Music®

by Bob Campbell

"Pure fun!": *Neil Randall, Compute!*

A whole new way to make great sounds — even if you don't read a note. Instant Music uses artificial intelligence to give you mistake-free music. Write your own compositions, put together your own band, and amaze your friends — it's so easy, you'll be creating original music in just minutes! **$49.95**

Features:

- "Mousejamming": use your mouse to control one electronic instrument, and choose a three-piece backup band to play along. Artificial intelligence makes it as easy and mistake-free as an air guitar — (and it sounds much better!).
- Digitized instruments for great sound quality.
- Change instruments in mid-song!
- "Quick Draw" feature lets you lay down lots of great-sounding music with just one click of the mouse
- Color bars display each instrument's part onscreen — you don't have to read a single note!
- Cut and paste features let you edit your compositions
- Scale Ruler feature shows you the keyboard notes as you play
- Compatible with Deluxe Library music data disks and other programs supporting Apple's preferred music and instrument files

Deluxe Library™

A new collection of pre-built art and music you can use with any Deluxe Creativity Series product! The first color clip-art collection you can use with any Apple IIGS product that supports Apple's preferred Graphic File Format — plus specially designed "brushes" to use with any Deluxe Creativity Series graphics product! Completely compatible with "preferred" graphics and music file formats for easy compatibility with other software. **$29.95 EACH**

Art Parts™, Volume I Over 175 specially designed color images for DeluxePaint II, DeluxePrint II, and other Apple IIGS applications. Faces, maps, charts, birds, plants — plus fantasy art, from dinosaurs to alien creatures to the animals and landscapes of Africa!

Art Parts™, Volume II Over 100 color images in 12 categories for DeluxePaint II , DeluxePrint II, and other Apple IIGS applications. Astronomy, military, interiors, seascapes, people, lettering styles, storefronts, farm and nature items, and more!

Seasons & Holidays™ A whole year's worth of art for every occasion! New Year's to Christmas, Fourth of July to Hanukkah...
plus special graphics for parties, birthdays, weddings, and the four seasons. More than 100 images to use in cards, signs, decorations, calendars, and anywhere else DeluxePaint II, DeluxePrint II, or other Apple IIGS applications can put them.

It's Only Rock'n'Roll™ A new collection of 40 original songs from eight eras of rock history, for use with Instant Music and DeluxeMusic Construction Set. 22 new instruments, plus a 24-page manual that covers the development of rock music from 1956 through the Seventies.

Hot & Cool Jazz™ Live the history of jazz music from 1900 to right now with this collection of over 40 songs specially created for use with Instant Music and DeluxeMusic Construction Set. New digitized jazz instruments are included, plus a 24-page manual that details the songs presented, jazz history and jazz harmony.
